\$420M+ Career Revenue • **9** Deals Over \$12M • **30+ Years** Enterprise Sales • **AI Studio** Founder & Operator

PROFILE

I run an AI build studio. Kerzie AI Solutions designs, sells, and deploys custom AI products for enterprise clients: Voice AI for manufacturing and field services, agentic lead qualification, and NVIDIA NemoClaw inference installations for construction and logistics. I am the founder, the architect, the seller, and the operator at once, which means I translate AI architecture into business outcomes because I have shipped it, not because I have sold around it. Behind that is thirty years of enterprise sales: \$420M+ in career revenue, nine deals over \$12M each, \$184M closed at Ribbon Communications across twelve years at 102%+ average attainment, and a 12-person sales organization built from scratch at Calix against a \$60M annual quota. I have run the founder-led motion and the scaled one, and I know what the transition between them actually costs.

CORE CAPABILITIES

- AI build studio founder and operator, not an advisor
- Founder-led to scalable enterprise GTM transition
- Voice AI, agentic workflows, and LLM deployment in production
- Enterprise new logo and 6- and 7-figure deal cycles
- Hiring, coaching, and developing enterprise sales teams
- Regional number ownership, forecast accuracy, pipeline inspection
- Complex buying committees: procurement, legal, architecture review, C-suite
- MEDDPICC, Command of the Message, Challenger, Force Management

PROFESSIONAL EXPERIENCE

Founder, Kerzie AI Solutions (AI Build Studio)

McKinney, TX | January 2023 - Present

- Design, sell, and deploy custom AI products for enterprise clients across verticals: Voice AI for manufacturing and for electrical field services, agentic lead qualification systems, and NVIDIA NemoClaw enterprise inference installations for construction and logistics
- Run the complete founder-led sales motion end to end: outbound, discovery, scoping, proposal, negotiation, and post-deployment optimization
- Translate LLM orchestration, STT and TTS pipelines, and agent architecture into executive business outcomes for non-technical buyers
- Products in production: Unison (unified communications), Ad2Action (multi-agent lead qualification), NemoClaw (enterprise inference), and GotaGuy (SMS-native home repair marketplace, live in two markets)
- Built and launched paid acquisition campaigns entirely through the Meta Marketing API

Area Vice President, Sales

Calix - San Jose, CA (Remote / Dallas) | January 2019 - January 2022

- Led a 12-person enterprise sales organization against a \$60M annual quota, owning the regional number and forecast accuracy
- Built the operating cadence, CRM hygiene standards, sales playbooks, and coaching model from scratch inside a high-growth SaaS business
- Ran deal strategy and pipeline inspection on multi-stakeholder cycles through procurement, legal, technical architecture review, and C-suite approval

Senior Sales Director

Ribbon Communications (formerly Sonus Networks) - Westford, MA | January 2007 - January 2019

- Closed \$184M in enterprise voice infrastructure and unified communications into Fortune 500 and global organizations across telecom, financial services, and enterprise
- Nine deals exceeding \$12M individually, at 102%+ average quota attainment across twelve years
- 8x Honor's Club and 5x President's Club; recognized for sales innovation and thought leadership at annual conferences

Director, Fiber Monitoring - Business Development

EXFO - Richardson, TX | June 2022 - January 2023

- Led enterprise market development for AI-adjacent telecom analytics
- Executed proofs of concept with Apple and LinkedIn, translating technical platform capability into C-suite ROI narratives

North American Sales Manager

DGI Technologies - Richardson, TX | 1998 - 2005

- Grew annual revenue from \$4M to \$29M including a single \$19M transaction; averaged 140% of quota and was named 1998 Salesperson of the Year
- Earlier: NEC Unified Solutions, direct enterprise sales including BNSF Railway and Time Warner Cable; MicroTRAKgps, Director of Sales and Business Development, GPS fleet tracking
